Location 📍 : Cuddalore, Tamil Nadu, India

---

## PROFESSIONAL SUMMARY

Motivated B.Tech Information Technology student with a strong foundation in **Python** and **web development**. Skilled in object-oriented programming, problem-solving, and utilizing tools like **Figma**, **Adobe Photoshop** and **Canva** to understand design principles. Seeking to contribute as a Python Web Developer by applying my programming knowledge and teamwork skills.

---

## EDUCATION

B. Tech in Information Technology,  
Nehru Institute of Engineering and Technology, Coimbatore  
Expected Graduation: 2026 | CGPA: 7.64

Higher Secondary (12th Grade),  
Anandhan Memorial Matriculation Higher Secondary School, Cuddalore  
Year: 2022 | Percentage: 76%

Secondary School (10th Grade),  
Anandhan Memorial Matriculation Higher Secondary School, Cuddalore  
Year: 2020 | Percentage: 87.2%

---

## TECHNICAL SKILLS

- **Programming Languages:** This is the most crucial category for a developer role, and you have it at the top, listing languages like Python, HTML, CSS and JS.
  - **Tools:** This indicates familiarity with industry-standard software like VS Code, Git.
  - **Concepts:** This demonstrates your understanding of fundamental computer science principles.
  - **UI/UX & Graphics:** Figma, Adobe Photoshop, Canva and Blender.
- 

## PROJECTS

### Portfolio Website

- Technology Stack: HTML, CSS, JavaScript, VS Code
- Designed and developed a personal portfolio website to professionally showcase my projects, skills, and professional experience.
- Built using HTML, CSS, and JavaScript to demonstrate proficiency in core front-end development.
- This project highlights my ability to write clean, well-structured code and my commitment to understanding effective UI/UX principles.
- GitHub: <https://github.com/jayapradapj/Jarvis-AI-Assistant>

## College Website

- Technology Stack: HTML, CSS, JavaScript, Bootstrap, VS Code
- Designed and developed a responsive college website to provide students, faculty, and visitors with access to information such as courses, faculty details, events, and news.
- Built with HTML, CSS, and JavaScript to ensure a modern UI/UX across desktop and mobile devices.
- **Implemented a clean and intuitive navigation system** that allows users to easily find information, improving the overall user experience.
- This project demonstrates my ability to translate a real-world need into a functional and user-friendly web application.

## AI Voice Assistant (Project Jarvis)

- Technology Stack: Python, LiveKit, APIs, Speech-to-Text & Text-to-Speech libraries
  - Developed a real-time voice-activated AI assistant using Python and LiveKit open-source framework.
  - Designed backend logic to process user commands and interact with external services via APIs.
  - Implemented real-time bi-directional voice communication with low latency using LiveKit.
  - GitHub: [github.com/jayapradapj/My-portfolio-Repo](https://github.com/jayapradapj/My-portfolio-Repo)
- 

## INTERNSHIP

- Web Development Intern, HIS AUTOMOTIVE PVT LTD, Chennai  
January – February 2025
  - Created responsive web pages using HTML and CSS.
- 

## PERSONAL DETAILS

Date of Birth: 11 March 2005  
Languages: Tamil, English
